

**Project Specifications:**

Project Type: New Construction

Completion Date: 1998

Construction Cost: \$5,200,000

Size: 53,000 S. F.

All assisted living facilities strive for a home-like atmosphere. Elan Gardens successfully accomplishes this through a function-driven design and the inclusion of many amenities. Located on a 20 acre site, Elan Gardens was designed to take full advantage of scenic mountain views, and it has abundant outdoor spaces, walking paths, and picturesque gardens. This three-level, wood frame country manor houses 60 suites. The units are constructed in four different styles, most of which are two-room living suites. The public spaces encourage socialization and strive to meet the daily needs of all residents.

The country kitchen is a charmingly informal dining area in which residents can enjoy a cup of coffee or light snack. The four season porch entices residents to visit around game tables or take a stroll along the rose garden walk. The cozy parlor/library is the perfect spot to read or engage in a fireside chat. The wellness center offers exercise equipment, an open exercise area, doctor and nurses' offices, and access to an outdoor walking path. An educational/crafts activity area, a country store, beauty shop and synagogue/auditorium complete this well-rounded residence facility.
