

Project Specifications:

Project Type: New Construction

Completion Date: 2001

Construction Cost: \$7,200,000

Size: 55,000 S. F.

The Greater Orange County Medical Arts Building was designed to provide patients with easily accessible, full service, state-of-the-art cancer care and treatment. The two-story, 55,000 S.F. facility contains not only a comprehensive cancer center, but rental space for physicians in related specialties as well.

The center houses radiation and chemotherapy suites, a separate women's center, and a diagnostic imaging suite with an

MRI, CT scan, and general radiology rooms. The facility is owned and operated by a partnership of medical and radiation oncology physician groups. These physicians all have their office suites located in the building, further enhancing patient accessibility and convenience.

In bringing together these interrelated specialists, the center provides a convenient one-stop facility for nearly all cancer diagnostic and treatment services.
