

Project Specifications:

Project Type: New Construction

Completion Date: 1996

Construction Cost: \$3,630,000

Size: 39,400 S. F.

Old world charm is everywhere you look around Willowbrook from the Victorian architecture to the majestic curved staircase, to the sun-drenched, richly furnished sitting rooms. Willowbrook feels at the same time both homey and opulent.

The two-story structure contains 52 sound-insulated dwelling units (80-bed count maximum) in several different configurations including private units, semi-private units and suites. All were constructed to maximize natural light and bring indoors the natural beauty of the 3.5 acre site.

All units have large windows, some have bay windows with cozy window seats, and all have tea kitchens equipped with microwaves, small refrigerators, sinks and counters. High wood ceilings, a gas fireplace and a garden view make the dining area elegant and intimate while allowing for ease in serving up to 80 in a restaurant setting. A private dining room is available for family functions. There are several more casual all-season porches with inviting wicker furnishings and large windows.
